Databridge 310

The Cost Effective Telemetry Device

- Compatible with Vendmanager, for: single walk, visiting on demand & pre-packing
- Machine event reporting
- Remote monitoring portal
- Enhanced network roaming capability
- Designed and made in the UK
- Fully compliant with EVADTS standard
- Comms pass-through for portable device audit etc
- Plug and play (protocol and baud rate auto-sensing)

Specification	Details
Input voltage	12-40v DC
Cellular	Dual band 900/1800 MHz
Antenna	50 ohm SMA Female (Jack)
SIM	Mini SIM
Ports	USB Port – configuration / diagnostics 6 Pin Molex – Power 8 Pin Molex – 2 x RS232 [DEX In/Out] + 2 x I/O
Switches	Recessed reset switch User switch [Collector]
CPU	ARM 48Mhz with 128KB ROM/16KB RAM
Protocol	DEX / DDCMP (auto sensing)
Baud rate	2400-19200 (auto sensing)
Battery backup	Optional super capacitor
Dimensions	128mm x 85mm x 35mm
